MESSAGING

You may copy and paste these messages directly into your church communications or use them on social media, or you may modify them to fit your context.

Join us for our new small group study Dialogues On: The Refugee Crisis! Each week we'll watch a short video, have some discussion, and reflect on reading we have done around this important topic.

Difficult topics can be tough to talk about, especially in a group setting. Our next small group study will use Dialogues On, which is designed to build communication skills and talk about tough issues – like the refugee crisis – to turn conflict into community. Please let us know if you'd like to join!

Join us in a safe space to ask honest questions and have open dialogue while learning more about the refugee crisis going on in the world today. There's still plenty of space to sign up for this adult small group!
